

EMPOWER YOUTH SUCCESS THROUGH WORLD-CLASS MUSIC EDUCATION

Music education makes an impact.

And yet, for young people in South King County, access to music education is very limited.

Key to Change ensures that underserved middle and high school students have access to world-class music instruction. Our program is a place for young people to build connections and achieve great things.

While Key to Change’s tuition is far below market rates, our students learn from all-star faculty, participate in masterclasses with renowned musicians, and perform in high-profile events.

Rigorous and supportive musical training inspires self-discovery, creativity, and accountability. While many of our students will not become professional musicians, they will become our future community leaders who are responsible, caring, and engaged citizens.
